

OSM/IN DECISION

Standard:	EN 61008-1:2012	Sub clause:	A.3.3	Sheet N°:	OSM/IN 282
Subject:	Simplified test procedures	Key words:	- Simplified test procedure - Basic fundamental design - RCCBs	Meeting N°:	26 (2016)
				Inquiry:	OSM/IN(IT-IMQ)02-2014

Question:

In case of a sub range of RCCBs type S having the same basic fundamental design of a range of type A (tested simultaneously) and having a constructional difference in the electronic circuit only as permitted in the item A.3.1 d), however is it applicable the item A.3.3?

Proposal:

The item A.3.3 is applicable.

Explanatory Notes:

The item A.3.3 for a sub range of RCCBs type S is always applicable
