Suspension devices	<ul style="list-style-type: none"> - Additional weight - Point B and/or C - Design 	ETF5-OSM/LUM	

Question

Where is the additional weight of 4 times the luminaire's weight supposed to be put on a pendulous luminaire? On point A, B or C of the attached figure?

Decision

Depending on the design on point B and/or C.

Explanatory notes

In the 8th Edition of IEC 60598-1, the test A has been modified and clearly states that the test shall be done also for the external parts attached to the luminaire.
