Lampholder terminals	<ul style="list-style-type: none"> - Screwless terminal - Rewirable luminaire - Solid/flexible conductors 	OSM/LUM-ETF5	2019 ETICS Plenary Meeting
Question			
<p>When an exchangeable flexible cord is connected to a lampholder with screwless terminals, is it required that the lampholder terminals are separately tested for multiwired conductors?</p>			
Decision			
<p>Lampholders with screwless terminals shall not be used in rewirable luminaires, unless they are tested for both solid and flexible conductors. This also applies for lampholders including switches.</p>
