Cord anchorage on adjustable luminaire	<ul style="list-style-type: none"> - Cord anchorage - Adjustable - Cable length 	OSM/LUM-ETF5	2019 ETICS Plenary Meeting
Question			
<p>1) Adjustable luminaire where the internal wiring passes out more than 80 mm; is it necessary to use cord anchorage on both sides of the cord?</p> <p>2) Could the use of cord anchorage be avoided considering that an adequate cable length and limited of movement luminaire prevents any strain during it adjusting?</p>			
Decision			
<p>1) Yes.</p> <p>2) No.</p>
