IP 40	<ul style="list-style-type: none"> - IP 40/EN 60529 - Luminaire enclosure - No entry 	OSM/LUM-ETF5	2019 ETICS Plenary Meeting
Question			
<p>Clause 9.2 requires the follow – <i>“No entry into the luminaire enclosure by the relevant test probe for first characteristic IP numeral 3 and 4”</i></p> <p>We have an example on which it is not so easy to evaluate if the test probe is into the luminaire enclosure or if it can be considered outside. As shown on the attached picture, in some parts of the frame, the test probe may arrive near to a slot which is 6mm width (SEZIONE B-B).</p> <p>What is the opinion of other Laboratories?</p>			
Decision			
<p>The enclosure is not IP 40.</p>
