Question	Normal load for the pump motor of a carpet cleaning machine.		
Decision	<p>Unless the manufacturer instructs the user otherwise, the normal load for a liquid dispensing pump is a repetitive cycle of:</p> <ul style="list-style-type: none"> - on for 2 min with the valve open - off for 1 min with the valve closed. <p>The cycle is repeated until steady conditions. The container is refilled if necessary with a five minutes break.</p>
