

COLLECTION OF CIG-OSM/IN DECISIONS

Standard: EN 50075:1991	Sub clause: 17	Sheet no. OSM/IN 020 Page 1(1)
Subject: Glow-wire test	Key words: Glow-wire test	Meeting no. 2 Item 5.9.2
Question:	Test on the complete plug or on the insert alone?	
Decision:	The glow-wire test shall be performed on the complete plug. A “window” is removed in the outer shell preferably in engagement face, making it possible to apply the tip of the glow-wire directly towards the insert.	
Explanatory notes:	Consultation to CLC/TC 23X has been made. 1) No referenced document. See OSM/IN (Norway) 02/July 1992 (NEMKO item).
